

**British Romanian<sup>®</sup>  
Chamber of Commerce**

## MEMBERSHIP OF THE BRCC

The British Romanian Chamber of Commerce is a not for profit organisation, established in 1998 with a reputation that speaks for itself. We are a British registered company limited by guarantee with a permanent presence in both London and Bucharest, entirely membership owned and membership driven, with the mission to use our good offices and activities to increase British-Romanian business and investments.

Since our inception 10 year ago, the Chamber has built up a high quality brand reputation and we are now considered to be one of the top professional business organisations of its kind in the marketplace, which is seen to be both an effective voice for our members and the British-Romanian community as a whole.

### *Why should you join the BRCC?*

Because we:

- Initiate and provide continuously improving benefits and services for our members through our activities, events, general services in the UK and Romania, introduced for the benefit of the membership and the business communities at large
- Continuously strive to strengthen our financial position, so that we may develop our business and meet the needs of our growing membership
- Have established a local presence in the form of regional representatives in order to best service all our members, potential members, and encourage the development of regional micro enterprises
- Have introduced initiatives which ensure that we are and will continue to be recognised by policymakers, the media and business people as an effective voice for the business communities that trade between the two countries
- Positively and actively encourage co-operation and promotion between various governmental, non-governmental and business owned agencies, including social, cultural and charitable groups, which can contribute to an improvement in British-Romanian trade and investment as well as general well-being of civil societies
- Encourage and support the work of organisations and initiatives which best reflect the views and promote the activities of the British community in Romania and the Romanian community in the UK
- Through our successful activities of the last ten years, we have managed to create a benchmark that has been used by other bilateral organisations when setting up
- Promote and assist our members to realise their aims and objectives in both countries

### *What will you get for your annual fee?*

- The added value of a warm, friendly and personal approach to each individual enquiry, always!
- Instant access to a large number of potential clients through the BRCC internal membership and external networks
- Business, social and educational networking at our gatherings and events
- Access to a wider network through the BRCC's membership of umbrella organisation operating in the UK, Romania and Europe
- Access to the City of London network through BRCC CityLink
- Access to and contact with Government officials
- Active support of members' activities and initiatives
- Opportunity for information transfer and exchange
- Access to the business and market research services provided through the commercial arm of the Chamber and access to members' own pool of services
- The benefits of our collaboration with like minded business organisations, government and representatives
- The opportunity to develop your marketing strategy and to promote your organisation by having access to the BRCC's promotion suite - publications, online facilities, advertising, speaking and sponsorship opportunities
- Access to the discounted travel with member airlines and discretionary fee arrangements for rooms and conferencing facilities with member hotels
- The ability to make a difference and shape the Chamber's future through active involvement in the various working groups and committees

## **Membership Categories**

**Regular** membership has proven to be the most popular choice, attracting both small and medium size enterprises, as well as larger organisations from a wide range of industries.

**Sustaining** members include organisations wishing to make a more substantial commitment to the Chamber's development and in return enjoy enhanced benefits.

**Founder** members are those organisations that invest substantially in the running of the Chamber and each Foundation organisation is represented on the Board of Directors as of right.

Founder Members
Alexandrion Group
Alison Hayes
